

WEAR RED DAY

Fall in love with your heart this February 14th - help raise funds for life-saving heart research.

Heart disease affects 2 in 3 Australian families, making the need for research that much more important. Help raise awareness and funds on *Valentine's Day* by having a **'Wear Red Day'**. For a gold coin donation, you can choose to wear a red t-shirt, red socks, red hat or decorate your work space in red - your choices are endless. **'Wear Red Day'** is a great way to support life-saving heart research and help keep Australian families together for longer.

Please complete the details below to register your Wear Red Day fundraising activity.
